SAYS MUNITION MAKERS ARE FINANCING DEFENSE

Representative Tavenner Accuses Du Pont of Agreeing to Give Germans Powder Process Secrets.

The opening gun in the fight that is to under which the government will build all its battleships and manufacture munitions of war was fired in the House yesterday, when Representative Taven-ner, of Illinois, made a speech in which he charged that the munition makers were heavy contributors to societies or ganized to further the cause of prepared

Tavenner criticised retired army Mr. Tavenner criticised retired army and navy officers for having accepted employment with corporations engaged in manufacturing munitions, intimating that such relations were improper and insisting that they should be prohibited by the government. He advocated the construction of government-owned mu-nition plants, making the argument that it would be practically impossible for the United States adequately to expand its military establishments as long as it had to pay the high prices exacted for such products by private corporations. Mr. Tavenner charged that the manition makers operated under a community of interest system, and that all were anxious to commit the government to extra-ordinary expenditures for the army and

In the course of his speech Mr. Tavenner referred to an agreement alleged to have been made by the du Pont Powder Company to supply its products to Germany. He charged that in this agreement the Delawars corporation was pledged to impart to Germany any secrets that might come into its possession relative to the science of powder making. At the same time, according to Mr. Tavenner, the du Ponts had relations with the United States which gave it the benefit of any secret knowledge that American naval officers might have as to powder processes.

Mr. Tavenner said the agreement Mr. Tavenner said the agreement with Germany was signed by a man who is now sitting in the United States Senate, meaning Senator du Pont, of Delaware, member of the Com-nittee on Military Affairs, and former
